

Hitachi Global Air Power air end centres

Experts in air compressor air end
refurbishment and exchange

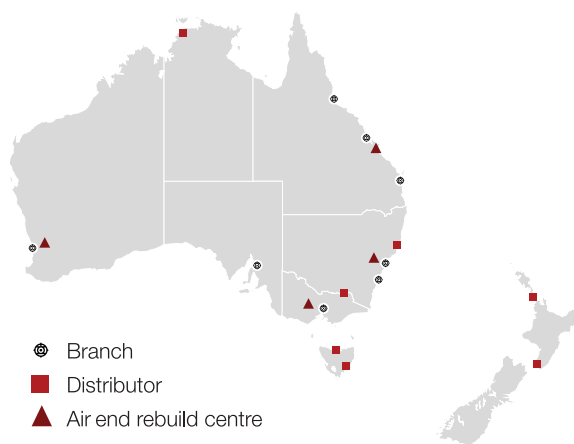

Did you know Hitachi Global Air Power now has four air end centres across the country?

Manned by factory-trained service technicians and equipped with the latest tools and diagnostic equipment, our air end centres in Perth, Mackay, Newcastle and Melbourne offer the customised air solution you need.

Any air end, anytime

Got an air end that isn't a Sullair or Champion? Don't worry, we've got that covered. Our skilled technicians can provide advice on repair, refurbishment or replacement of other makes and models too. Whatever your history, we're here to help your business by maximising your compressors' up-time.

Rebuilding an air end is a precision job

That's why Hitachi Global Air Power air end centres are manned by expert technicians equipped with state-of-the-art equipment.

Hitachi Global Air Power air end centres offer:

- Full rebuilds in accordance with factory design specifications
- Air end exchange, complete drill kits and vessels – all genuine components
- The latest diagnostic and repair equipment
- Expert technicians with years of experience.

Call us today at 1300 266 773 to speak to one of our expert staff or drop in to one of our air end centres.
