THE SHOPTEK SERIES

ShopTek Screw Compressors deliver the everyday performance, reliability and energy efficiency you need, at a price you can afford.

Available in direct or belt drive configurations, every compressor is designed for Australian conditions. And because they're fitted with the famous Sullair Air End, ultimate life-expectancy comes as standard order.

All ShopTek motors are MEPS2 compliant, so you get improved energy efficiency and a reduced carbon footprint. That's a win for your bottom line, and a win for the planet. And when you're saving on ongoing power and maintenance costs, today's investment brings continued rewards long into your

OUR BRANDS

SULLAIR

The name you
can trust.

If your business runs on compressed air, then you need a reliable compressed air supplier. A company that understands the local conditions, goes above and beyond to solve even the most complex of problems, and helps you retain your competitive edge with smart new technologies and bright ideas.

Sullair is that business. Over the half-century we've been operating, we've been proud to support Australian industry across fields as diverse as mining, farming and healthcare.

We see ourselves not just as your supplier, but also as your partner – a proudly Australian operator backed by our international parent company Hitachi. Your success is our success. So if you can't do without compressed air, let's have a chat about what we can do for you.

DESIGNED FOR AUSTRALIAN CONDITIONS

Tropical North to desert centre and frosty extremities – no one on Earth knows harsh and varied environmental conditions like Australians. That's why it has been designed and engineered to suit Australian conditions.

OUR POINT OF DIFFERENCE

Customer support

FULL SUPPORT, NO WORRIES

When you buy a Sullair compressor, you're not just buying a compressor.

You're buying the peace of mind that comes with a national support team, including seven local offices, GPS-tracked mobile service vans, instructor-led and online training, plus the expertise of our technicians, who are factory trained using the latest tools and diagnostic techniques to ensure the optimum service of your compressor. So if anything ever goes wrong, or if you simply want to make sure that you're getting the most out of your compressor, just call **1300 266 773**. We've got you covered.

Reduced life cycle costs

DRIVING PRODUCTIVITY UP, AND ENERGY COSTS DOWN

We know energy efficiency is important to you; it's important to us, too.

Compressed air systems now make up 10 per cent of total industrial electricity use in Australia, and the cost of electricity continues to rise.

And that's not all: nearly 75 per cent of the life-cycle cost of an air compressor is energy. This is why we've designed our Sullair compressors and air ends to deliver optimum efficiency over their life cycle.

SHOPTEK BENEFITS

Space saving design for a smaller footprint

Hassle-free service with an easy-access enclosure

Everyday quiet achievers for maximum air

Unmatched productivity, longevity and safety – standard features of a Champion

Fine-tune as you go – for uninterrupted, uniform production every time

Customisable with features including filters, dryers and various mounting options

Built for easy servicing, with full factory warranty and genuine parts

Ensures a clean operating environment with oil emissions below 2-3 ppm

THE SHOPTEK 4-15

Engineered by Sullair to meet varied requirements through space saving and energy efficient design.

The ShopTek 4-15 is not only energy efficient, its clever design helps you save space and minimise noise, too.

Available with dryer and filter options, and mounts to suit either 300L or 500L tanks. And with genuine Sullair parts and our excellent, nationwide service standards, we'll always make sure your machine runs smoothly, wherever you are.
